

The image displays a series of 54 numbered steps for constructing a truck with a trailer. The steps are arranged in a grid-like fashion, showing the progression from individual parts to the final assembled vehicle. A parts list at the top right identifies the components used in the build:

- 68: Red 4-way connector
- 13: Grey 4-way connector
- 15: Blue 4-way connector
- 3: Black 4-way connector
- 90: Green 3-way connector
- 22: Yellow 3-way connector
- 90: Red 1x2 Technic brick
- 10: Yellow 1x2 Technic brick
- 4: Green 1x4 Technic brick
- 3: Black 1x4 Technic brick
- 9: Black 1x2 Technic brick with hole
- 8: Black 1x2 Technic brick
- 1: Grey 1x2 Technic axle
- 3: Black 1x2 Technic axle
- 8: Black 1x2 Technic axle
- 2: Grey 1x2 Technic axle
- X2: Grey 1x2 Technic axle
- 8: Black 24-tooth gear

The assembly steps include:

- 1-13: Building the front cab structure with blue, yellow, and black Technic bricks.
- 14-16: Attaching the front wheels using black gears and axles.
- 17-22: Completing the cab and adding a steering mechanism.
- 23-33: Constructing the trailer's base and sides using a mix of red, yellow, green, and blue bricks.
- 34-40: Adding structural details and connectors to the trailer.
- 41-46: Building the top of the trailer with red Technic bricks.
- 47-51: Attaching the trailer to the truck's chassis and adding rear wheels.
- 52-54: Final assembly and adjustments, including the trailer's articulation.
