AWARD WINNING EDUCATIONAL AND CREATIVE PRODUCTS

Morphun has a core belief in the growing importance of STEM (Science Technology Engineering and Maths) in education. Manipulative and construction toys are an essential way to develop creative play, fine motion skills, hand eye co-ordination, team work and problem solving skills in children and are essential to STEM. Morphun meets creative and STEM needs in new and challenging ways. The core educational improvement in Morphun bricks has been to move away from one push fit for vertical joining to a range of different ways to join. Morphun has push fit - slide fit - joiner fit and direction changers as well as wheels, gears, chains, pulleys and axles. Morphun provide a huge range of instructions and teacher materials and guide books.

All our maths and letters sets can be adapted to suit any language or alphabet. Our products can be supplied in tough plastic containers or in simple plastic bags with free labels, so that you can choose your own locally purchased tubs. All sets have EN71 approval, most have ASTM, and are all manufactured in Europe. This catalogue introduces our range. All product codes with pictures are on our website: www.morphun.com

See our amazing YouTube site at <https://www.youtube.com/c/morphun> that gives many more ideas on how to join our brick products and amazing things you can make or do.

NEWS FLASH.....NEWS FLASH..... As part of our push to reduce the use of paper, as well as allow schools to reprint lost instructions, from autumn 2020 we will start to offer as an alternative, printed instructions on-line and access codes in every set. By Jan 2021 most sets will have on offer up to twice as many model instructions as now available, but up to 50% less A3 colour sheets in the actual sets. Twice the instructions half the trees. Ask for details.

AGE 2½ yrs+

A HI-QUBE KINDERGARTEN CONSTRUCTION SYSTEM

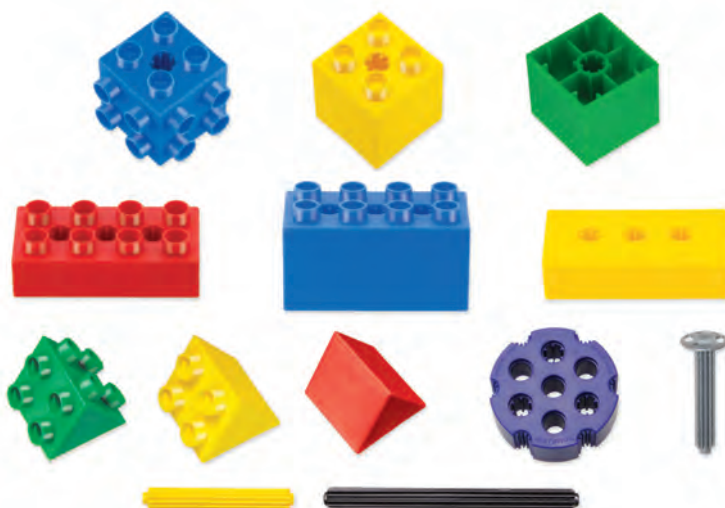

Hi-Qube Morphun's youngest age construction product. This set is easier for younger ages than Morphun Starter or Junior as it leaves out the sliding side joiner. In line with our target that sets have educational value for at least 4 age groups, these sets will entertain 2½ year olds as well as challenge 6 year olds.

Now
+10%
More bricks for
the same price!

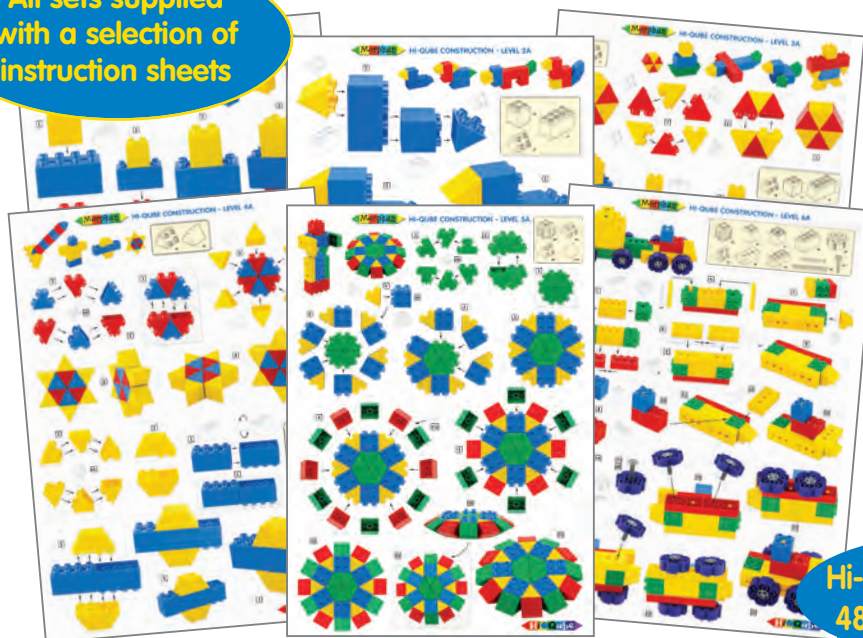

We have created cubes with studs on up to three sides that join to Morphun and other stacking brick products. Unlike traditional studded stacking only bricks Hi-Qube is multi-directional in build. It has wheels, axles, cubes, triangles and joiners. These sets can be supplied with instruction levels 1-6 and can include the amazing Guide book. Letters, Numbers, Emotion Faces and Eye stickers are available free in all larger sets. These sets mixed with old fashioned stacking bricks will also transform what you can do with your old stock of traditional bricks.

HI-QUBE KINDERGARTEN SET PIECES

All sets supplied with a selection of instruction sheets

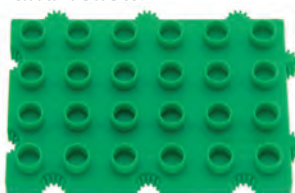

Hi-Qube Kindergarten
48 Page Guide Book

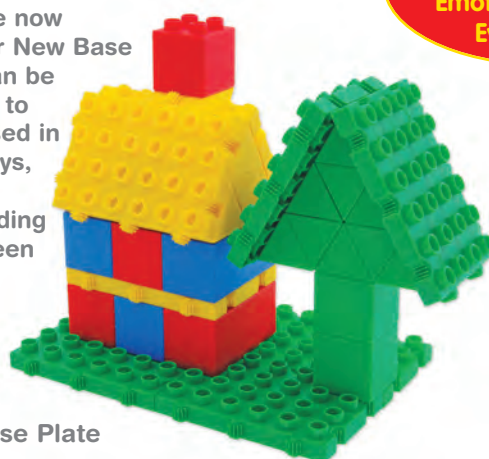

Most sets now include Letters, Numbers, Emotion Faces and Eye stickers.

Base Plates
Available Now

B We have now introduced our New Base Plate piece. It can be used as a platform to build models on or used in a variety of different ways, and is compatible with all Morphon and most other leading brick ranges. Available in Green and Yellow.

Base Plate

All Hi-Qube sets are supplied in a large variety of excellent tubs, trays and bags. See our website for details:

AGE 3yrs+

C JUNIOR STARTER RAINBOW SYSTEM

This MULTIPLE GOLD award winning Morphon Junior Starter Rainbow system is recommended for ages 3-6, whilst being safe for children under three. The side joining Squares and Triangles allow hundreds of models and shapes to be built. Includes a selection of easy to follow full size A3 instructions, and range from levels 1-6. All Morphon square bricks are compatible with traditional plastic bricks.

JUNIOR STARTER RAINBOW PIECES WITH CHOKE SAFE AXLE

Junior Starter Rainbow Levels

Easy to follow A3 instruction Sheets.

Rainbow sets are supplied with a selection of instruction sheets Level 1-6.

Morphun have developed these Junior Starter Rainbow set instructions to help the teacher target the exercise at the right skill levels. This allows growing knowledge and confidence to develop as each level is attained.

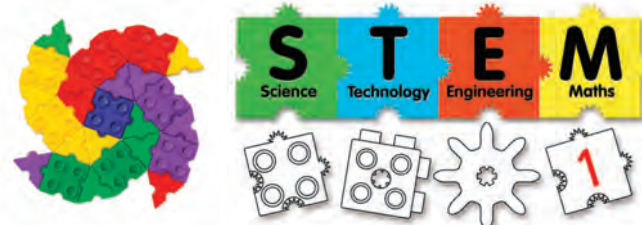

Level 1 - Models are shown actual size so the bricks can be placed on the work sheet in the correct place to build a simple two dimensional model. Ages 3+

Level 2 - Many more two dimensional models, smaller than actual size and there are more models per page. Ages 4+

Level 3 - This level adds three dimensional models. Ages 4+

Level 4 - All sets now have choke safe axles and level 4 has many models with wheels Junior Starter is for ages 3-6. It is now choke safe so that under threes may have safe access to the pieces. Ages 4+

Level 5 & 6 - More challenging larger models. Suitable for teamwork activity. All sets have choke safe axles. Ages 4+

Morphun Junior Starter Rainbow sets are supplied in a large variety of excellent tubs, trays and bags.

D JUNIOR STARTER PLUS CONSTRUCTION SYSTEM

'Bricks to Make Them Think'

Morphun now bring their latest new product Junior Starter Plus. This combines the amazing flexibility of Morphon Junior Starter Plus the multi-directional build of our Hi-Qube cubes and triangles into a mind teasing Kindergarten Set.

Forget old fashioned stacking bricks, and try this amazingly educational **STEM** bricks set. The set will have of course a wide range of printed colour instructions at different levels of difficulty and will benefit from the optional addition of the Junior Rainbow Guide Book. It will be available summer 2020 in a range of tubs sizes. This set will be choke safe when used in kindergartens, yet challenging for all ages 3-6 years.

Junior

besa
BRITISH EDUCATIONAL
SUPPLIERS ASSOCIATION

STEM
AUTHENTICATED
EDUCATIONAL PRODUCT

E JUNIOR CONSTRUCTION SYSTEM

2013 Winners of the coveted BESA ERA award in the UK and with 9 other major GOLD awards Morphon Junior sets are for ages 4+. They have the unique side-joining feature built into both square and triangular bricks. Sets include long connecting pieces and direction changers as well as wheels and axles.

Morphon Junior sets already make far more models and shapes than competitor sets but with far fewer pieces. All Morphon square bricks are compatible with traditional plastic bricks.

Junior sets are supplied with a selection of Levels 1 to 6 instructions.

Junior instructions start at a similar level to Junior Starter Rainbow, but the level of difficulty increases more quickly. At level 4 more and different pieces start to be added to further increase the learning challenge and design potential.

Level 1 - Models are actual size so the bricks can be placed on the work sheet to build a simple two dimensional model. Ages 4+

Level 2 - Many more two dimensional models, smaller than actual size with more models per page. Ages 4+

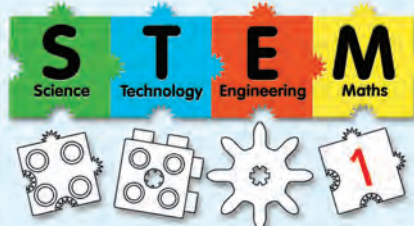

Level 3 - This level adds three dimensional models but still has some two dimensional ones. Ages 5+

Level 4 - These are all three dimensional but the models are small and fairly simple. Ages 5+

Level 5 and 6 - More challenging models with additional different pieces. Suitable for teamwork activity. Ages 5-10.

Sets have a selection of levels 1 to 6 instructions. Soon more FREE at morphon.education

In total there are now 22 Double sided A3 instructions sheets of models, with over 300 model diagrams. Levels 1-4 and the Junior Guide book can all be made from a 300 set, and any level 5 instruction can be made from one Standard Junior 500 piece set. The 600 set or larger will make all levels including level 6.

F CLASS PROJECT SET

This huge class project set, has a huge Lion and T-Rex Dinosaur. The 2374 piece set introduces team work to Morphon and reinforces the need to carefully follow instructions. We have included five simple 2D models to introduce the concept.

MORPHUN JUNIOR XTRA CONSTRUCTION SYSTEM

Morphun also offer revised improved Junior sets with two new extra direction changers and their own extra instructions and guide book.

Junior Xtra sets contain the same range of pieces as regular Junior sets but the introduction of two new direction changers, the 'T' and 'R' pieces, This adds further the ways bricks can be assembled, and encourages even greater creativity. A range of instruction sheets are available to accompany the Xtra range. This is now our recommended Junior range as it runs from ages 4 to 9.

J KinderMaths uses Morphun's numbered tiles with 1-10 spotted yellow tiles as well as Morphun's great construction bricks as the basis for a wide range of beginner level maths exercises. Kids have always started counting with their fingers, and this game works from that base through to counting with spots and then to numbers on tiles.

AGE 4yrs+

16 FREE WORKCARDS

34001 Kindermaths Set (43161 SD)

Work cards demonstrate counting to ten with fingers, spots, and then numbers. This extends from height and length, through to simple addition subtraction multiplication and division with numbers up to 10.
