WORDPHUN

Makes learning more fun

Spelling made easy

These award winning side joining bricks are designed to allow children to develop writing skills in a way that will have them spelling words just for fun. Here are some suggested games for players or teams to play. You will be able to devise many more of your own. Most Morphun sets also now have Teacher work cards included.

These lettered bricks are great fun for writing your name, your school's name or doing crosswords. Instructions for other exciting games are enclosed. These squares even join to Morphun® construction sets.

Morphun® sets are a whole new side-joining construction system that is worth looking out for - view our website at www.morphun.com. Side-joining bricks with the addition of triangles and other features allow dozens of models and shapes from even small sets, and hundreds from bigger ones. More fun from less pieces, so great value with great instructions sheets and guide books.

We have a range of upper and lower case sets available and you can see all these on our website, and we will print letters in any language requested, apply for details.

Buy any Wordphun set and get one FREE license for up to 24 people to play our amazing on-line Wordphun Learning Game. For further details go to <https://morphun.education>

WORDPHUN

Spell it

AGE 4yrs+

An excellent game to play anywhere, even in the car. Test your spelling and build words - Each player adds a letter in turn, but if challenged must be able to spell a word using more than the letters set out. You should avoid completing a word that cannot be made longer. Each player in turn chooses any letter from a central pool and adds it at either end of the word being built. He then passes the 'word' to the player on his left. Any player can start first, there is little advantage. The order of the letters once set cannot be changed.

Have a Dictionary to hand to be your umpire!

A player must add a letter, or challenge the previous player. When challenged, either -

- That player does not know a word that can be made from the letter so far, plus at least one more letter - the challenger wins the round and a point.
- or
- That player does know a word and wins the round and a point.

The winner is the player with the most points after 10 rounds.

Endings such as plurals or past tenses are permitted.

Example with 4 players

Player 1 chooses	B	
Player 2 adds at the end	A	
Player 3 adds at the end	N	e.g. Ban makes Band or Banned
Player 4 adds at the end	D	e.g. Band makes Bands or Contraband
Player 1 adds at the end	O	e.g. Bando makes Abandon

Player 2 challenges as he/she has no idea for a longer word Player 1 says 'bando' is part of 'Abandon' and wins one point.

Spellit - Basic

For an easier version for younger children letters can only be added at the right hand end.

WORDPHUN

Make 5

AGE 4yrs+

This is a game where the players are each trying to collect the letters needed to make a five or six letter word.

Put all the letters upside down in the middle so no one can see what they are. Then decide who will be the first player. Play clockwise. The player on his/her right will be the first player in the next round.

Each player in turn, starting with the first player, draws a letter, until all the players have 6 letters.

The players look at their letters, being careful not to show the letters to any other players.

When a player has a turn, he/she will either

- Show a word of 5 letters all joined together. This wins the round and scores a point
or
- Show a word of six letters, which wins the round and scores three points
or
- Put one letter back in the centre upside down, and draw a new letter. This ends this player's turn.

Words may have plurals or past tenses. Names are not allowed. If in doubt, the word counts only if it is in the dictionary.

A scorer needs to be agreed and must have a pencil and a score sheet. A normal game is 10 rounds.

Word 5

AGE 3yrs+

For this game you need a number of small pieces of paper and some pencils.

A scorer also needs to be selected.

All the Morphun® letters are placed in the middle of the table face up, so that you can see the letters.

Every player writes their name and a chosen word on a small piece of paper, and folds it in four and puts it face down in the middle of the table. The words must all be five letters long (they can be longer for advanced players or shorter for beginners). The words are mixed up by the scorer and each player draws one.

The players then all attempt to find the letters they need for their word and the first to complete the word they are given wins two points. The person who wrote the word also wins one point, but only if it is spelled correctly.

If you have the set with Morphun Pictures bricks you can put all the pictures face down, and on the start signal you choose three pictures each, and the winner is the first one to make two correct words to match two of the pictures.

10 rounds makes a good game.
